U.S. Air Force  
Washington, D.C.

Dear Sir: Could you send me  
all the information you could on  
flying saucers. Sir [REDACTED]  
[REDACTED] and I have been seeing mov-  
ing things that look like moving  
stars. On the Date Oct 2, 1963 Larry  
Goodman and I were watching the  
night sky when suddenly a bright  
star came out of nowhere, mov-  
ing lot faster than a airplane and  
it had no sound. We watch it  
carefully when the object started  
going straight up and it dis-  
appeared.

Thank You

Please rush it back  
to me as fast as you can

LITTLE, BOSTON

LITTLE, BOSTON

October 10, 1963

Dear [REDACTED]:

This is in response to your recent letter in which you report that you and [REDACTED] saw a bright, moving star in the sky on the night of October 2nd.

What you and [REDACTED] saw was undoubtedly Echo satellite which passed over Concord and Charlotte at approximately 8:04 p.m. on the night of October 2nd. It was south of the city of Charlotte, about 76 degrees above the horizon moving southeast.

For your information, we are sending you both some brochures on the subject of unidentified aerial phenomena which we think may be of interest to you.

Sincerely,

MASTON M. JACKS  
Major, USAF
